Pricing Schedule Fixed Wireless Business Broadband

All prices quoted on this schedule are inclusive of GST.

Prices quoted on this schedule are subject to change any time at Superloop's discretion.

¹ Installer site appointments are required for both installations and activations.

² On occasion, some sites will present a higher degree of difficulty and complexity to install or relocate the service, or may require additional materials not covered by the installation or relocation fee.

In the case of additional labour or extra materials, this may be required at the customers' expense.

Where additional labour or materials are required, a quote will be provided and must be accepted before the installation work can commence.

³ Any data that you have used, while shaped, above your monthly data quota, will be deducted from the amount of data provided by the data pack.

⁴ As per the section 9 to 9.8 of the Superloop Standard Form of Agreement (SFOA).

⁵ This fee is to be determined by the contractor on the day of the callout if the contractor chooses to provide an additional service as per section 9.9 of the Superloop SFOA. This additional fee for service must be agreed to prior to work commencing.

⁶ Administration fee to be charged to the customer gaining the service.

⁷ (Months Remaining X Original Selected Plan Minimum Monthly Cost).

⁸ As per section 9.10 of the Superloop SFOA. The cost may vary based on the type of equipment being repaired or replaced.

⁹ Holiday mode keeps your account and the antenna active for long periods of time while you are away. If you are still in contract, your contract length will be extended for the amount of time the service was left in holiday mode.
